- Heated Steering Wheel
- Heated Door Mirrors
- Power Liftgate
- Cabin Air Purification Plus
- Tow Hitch Receiver

This Discovery Sport delivers balanced performance with its 2.0L turbocharged four-cylinder engine paired to a nine-speed automatic transmission and all-wheel drive. The combination achieves 19 city and 23 highway MPG, providing respectable efficiency for a vehicle of this class and capability. The all-wheel drive system ensures confidence across varying road conditions while the responsive steering and independent suspension geometry create a composed driving experience whether navigating urban environments or exploring beyond the pavement.

The cabin demonstrates thoughtful attention to driver-focused design and passenger comfort. Dual-zone automatic climate control maintains individual temperature preferences, while the rear air conditioning keeps passengers in back equally satisfied on longer journeys. Heated leather seating surfaces provide warmth during cooler months, and the power-adjustable driver seat with memory function allows you to save your preferred positioning. The Meridian premium sound system with eleven speakers delivers quality audio reproduction for your music, podcasts, and navigation guidance.

Technology integration reflects current connectivity standards. The Pivi Pro navigation system provides intuitive route planning and real-time traffic awareness. Apple CarPlay and Android Auto enable seamless smartphone integration, while Bluetooth hands-free capability keeps communication within reach without distraction. The touchscreen interface responds quickly to inputs, and steering wheel-mounted controls provide convenient access to audio and phone functions.

Safety systems throughout the vehicle provide active and passive protection. Dual front and side airbags work with the electronic stability control system to manage vehicle dynamics during emergency maneuvers. Four-wheel disc brakes with ABS, low tire pressure monitoring, and rain-sensing wipers all contribute to consistent stopping power and visibility regardless of conditions. Emergency communication through InControl Protect adds an extra layer of security should assistance be needed.

The exterior design combines Land Rover's distinctive character with everyday practicality. Premium 20-inch wheels enhance the visual presence while supporting the vehicle's suspension performance. Auto-dimming headlights with fog

light support optimize visibility in varying light conditions, and the power liftgate simplifies cargo access when your hands are full. The body-color bumpers and integrated spoiler maintain visual coherence across the design.

We invite you to explore this Discovery Sport Landmark in person at our showroom to experience the quality of materials, the responsiveness of controls, and the purposeful layout that define this vehicle. Your test drive will demonstrate how Drive Dynamics, capability, and comfort combine to create a compelling ownership experience.
