The 2023 Land Rover Discovery in Fuji White with an Ebony interior is a quintessential luxury three-row SUV that balances sophisticated "curb appeal" with genuine off-road capability. This specific color combination offers a high-contrast, timeless look, featuring the crisp solid white exterior paired with the

deep, refined tones of the Ebony cabin.

Performance

The 2023 Discovery offers two primary powertrains: a 2.0L turbocharged 4-cylinder (P300) producing 296 hp, and a more robust 3.0L inline-six (P360) with mild-hybrid technology delivering 355 hp. Standard Electronic Air Suspension allows the vehicle to adjust its height for improved aerodynamics on the highway or increased ground clearance off-road. The legendary Terrain Response system and standard All-Wheel Drive ensure it remains as capable on mountain trails as it is on suburban streets, with a maximum towing capacity of up to 8,200 lbs.

Design

The Fuji White exterior highlights the Discovery's distinctive stepped roofline and "floating" C-pillar, while the Ebony interior provides a focused, premium atmosphere. The 2023 model maintains its sleek, aerodynamic profile with signature LED headlights and a gloss black Discovery script. Inside, the Ebony grained leather seats are complemented by high-quality materials and a clean, horizontal dashboard layout that emphasizes the vehicle's width and spaciousness.

Technology

Central to the cabin is the 11.4-inch Pivi Pro touchscreen infotainment system, which is fast, intuitive, and supports over-the-air software updates. A 12.3-inch Interactive Driver Display provides customizable navigation and vehicle data directly behind the steering wheel. Standard tech includes wireless Apple CarPlay and Android Auto, a wireless device charger with signal booster, and an optional Head-Up Display that projects key information onto the windshield.

Advanced Safety Features

Land Rover equips the 2023 Discovery with a comprehensive suite of safety tech, including a 3D Surround Camera that provides a virtual 360-degree view around the vehicle. Standard features include Adaptive Cruise Control, Lane Keep Assist, Emergency Braking, and a Driver Condition Monitor. It also features Wade Sensing technology, which uses sensors in the door mirrors to alert the driver if the water depth approaches the vehicle's maximum wading limit of 35.4 inches.

Convenience and Comfort

The Discovery is designed for family versatility, featuring stadium seating so all seven passengers have a clear view of the road. Convenience is prioritized through the Powered Tailgate and Three-zone Climate Control.

Here at Jaguar Land Rover Schaumburg, we appreciate the opportunity to earn your business. This begins by being 100% committed to putting our customers first and offering complete transparency with every transaction.

Please call us at (847)-252-7800 and ask to speak with one of our Sales Guides and we will be happy to provide you with any additional information you need to make your decision.

We look forward to serving you and welcoming you to the
