Description

RAV Vehicle. Free 1 Year/12,000 Mile Warranty! Recent Arrival! 2020 Land Rover Range Rover Evoque S The 2020 Range Rover Evoque marks the beginning of the second generation for this luxury compact SUV, showcasing a complete redesign that emphasizes minimalist sophistication and modern technology. While it retains the distinctive silhouette that made the original a global success, the 2020 model introduces a more refined aesthetic inspired by the larger Velar. It is engineered to offer a seamless transition between fashionable urban environments and demanding off-road trails, making it a versatile choice for discerning drivers who value both style and substance. Performance This model is typically powered by a 2.0-liter turbocharged four-cylinder engine, often available in two outputs: the P250 with 246 horsepower and the P300 mild-hybrid producing 296 horsepower. Power is delivered through a 9-speed automatic transmission and a standard all-wheel-drive system. The 2020 Evoque features Terrain Response 2, which automatically

adjusts vehicle settings to match the driving surface. This ensures confident handling whether navigating wet city streets or venturing onto more challenging landscapes.

DesignThe exterior design is characterized by a reductionist philosophy, featuring flush-deployable door handles and slim LED headlights that create a smooth, uninterrupted profile. Inside, the cabin has been transformed with a focus on clean lines and premium materials. The increased wheelbase provides more rear legroom than previous models, and the interior layout is designed to be uncluttered, offering a serene environment that highlights the vehicle's luxury heritage through high-quality finishes.

TechnologyThe 2020 Evoque introduces the sophisticated Touch Pro Duo system, which utilizes two 10-inch high-definition touchscreens to manage infotainment and climate controls. Integration with Apple CarPlay and Android Auto is standard, providing effortless access to navigation and media. A standout feature is the available Clear Sight Interior Rearview Mirror, which transforms into an HD video screen to provide a wide-angle view of what is behind the vehicle, even if the rear window is obstructed.

Advanced Safety FeaturesSafety is a primary focus, with the Evoque equipped with a suite of driver-assistance technologies. Standard features include emergency braking, lane keep assist, and front and rear parking aids. The 360-degree surround camera system and a driver condition monitor work together to enhance situational awareness. These systems are designed to provide an extra layer of security and convenience during both highway cruising and tight urban maneuvers.

Convenience and ComfortThe interior provides a high level of comfort with 10-way or 14-way electric front seats and dual-zone climate control. The cargo area has been expanded to offer 21.5 cubic feet of space behind the rear seats, which increases significantly when the 40:20:40 split-folding rear seats are stowed. High-quality upholstery options and advanced sound insulation ensure a quiet and relaxing cabin experience, making every journey enjoyable for all 5 occupants.

Odometer is 8084 miles below market average! 20/27 City/Highway MPG
