The Land Rover Discovery Dynamic SE 35th Anniversary Edition masterfully celebrates over three decades of premium family adventure and versatile refinement. This milestone model bridges world-class off-road capability with high-tier luxury, standing out as a distinctly specified flagship variant. Balancing an assertive road presence with premium interior comforts, it provides the ultimate answer for those demanding

seven-seat sophistication, supreme utility, and exclusive commemorative styling.

Performance

Motivated by a robust twin-turbocharged inline-six engine utilizing mild-hybrid technology, this vehicle delivers immediate power and seamless highway passing capability. An intelligent eight-speed automatic transmission channels power to an advanced permanent all-wheel-drive system. Standard electronic air suspension pairs with configurable terrain management software, delivering an incredibly plush, auto-leveling ride over tarmac and maximum trail traction.

Design

The exterior is defined by unique commemorative accents, striking black roof rails, and massive gloss-black wheels that emphasize its commanding stature. Inside, the cabin treats occupants to premium Windsor leather upholstery surrounded by sophisticated accent trim. The iconic stepped roofline yields generous headroom across all three rows, emphasizing an open, airy environment crafted with uniform stitching and exceptional attention to detail.

Technology

An advanced central multimedia system runs cutting-edge navigation and connectivity software on an intuitive, crisp interface. The interior features a premium surround-sound audio system that pairs seamlessly with wireless smartphone integration. Practical capability technologies, including a highly advanced multi-camera surround system, provide specialized views of the terrain directly beneath the vehicle front end to ease demanding maneuvers.

Advanced Safety Features

A sophisticated suite of driver-assist features maintains constant monitoring to safeguard every passenger. The safety network includes automated emergency braking with pedestrian detection, adaptive cruise control, and active lane-keeping assistance. Side-impact beams, blind-spot monitoring, and a comprehensive multi-airbag system ensure complete peace of mind through crowded urban streets or remote backroads.

Convenience and Comfort

Climate-controlled front seating with intensive power adjustments pairs with heated, electric-folding rear rows to optimize passenger relaxation and cargo versatility. A cold climate package adds a heated windshield and heated steering wheel for maximum visibility and warmth during winter months. A hands-free power gesture tailgate provides easy access to the extensive rear cargo hold, ensuring effortless utility for daily errands or cross-country road trips. Odometer is 4123 miles below market average!
