Enjoy a simple, transparent buying experience with upfront pricing, one dedicated point of contact, a 7-Day Money-Back Guarantee, and Low Price ProtectionÃ¢?'giving you complete confidence in your purchase. Convenience GPS linked cruise control - Set it and forget it. Road trips used to be stressful, until GPS linked cruise control set the pace. Simply set the desired speed and the system uses GPS navigation data to maintain that speed without driver intervention - including slowing down for curves and anticipating hills. This can help minimize driver fatigue and improve overall fuel economy. Meet your ultimate co-pilot GPS linked cruise control. Unresponsive driver assistant - a reaction to inaction. Maybe you fell asleep. Maybe you lost consciousness. No matter how it happens, Unresponsive driver assistant works to help lessen the danger when it does. It detects prolonged driver unresponsiveness, automatically bringing the vehicle to a stop and turning on the hazard lights. If equipped, emergency services will also be contacted. Unresponsive driver assistant is safety that never sleeps. Safety and Security Hands-on cruise control. Set it and forget it. Road trips used to be stressful. Cruise control only

managed speed, but not distance or safety. Now, with hands-on cruise control, simply set your desired speed and let sensor technology maintain a safe distance between you and surrounding vehicles. It slows you down speeds you up and even keeps you in your own lane. Meet your ultimate co-pilot with hands-on cruise control. Forward collision mitigation - Forward thinking. You look away for just a second and suddenly the vehicle in front of you has stopped. That's when the forward collision mitigation system comes to life. When it senses an impending impact, it will activate a combination of features to help prevent or reduce the severity of an accident. Forward collision mitigation is always looking ahead.
